

The Problem

1

Does not give an instant Pull Results

2

Takes time and human resources

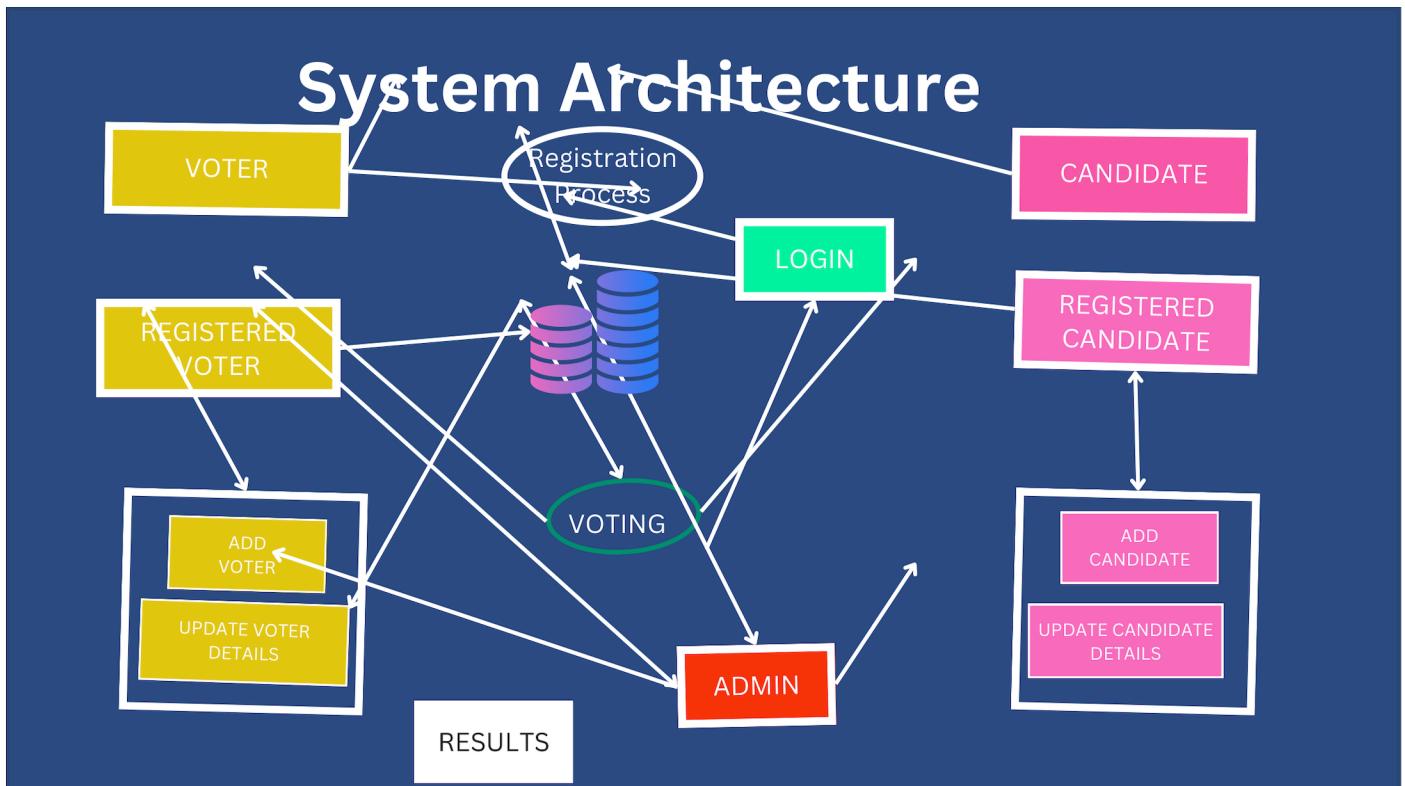

3

Hard to track who voted and who didn't

Solutions

- Instant Results
- Easy to keep and track votes
- saves time and human resores
- Online voting minimizes the Risk of bribery

System Architecture

Product

Technology Used

Software Requirement:		
Front-end:		Back-end:
HTML	JAVASCRIP	MYSQL
CSS/BOOTSTRAP	JSON	
PHP		

Target Market

- Targeting governments Institutions, election commissions, and organizations through digital marketing and strategic partnerships
 - Colleges
 - Universities
 - County Assembly/National Assembly/Judiciary

Market Size

POPULATION		3,547,900
37 STT COLLEGE		11,900
2,396 TEVET		2,396,000
64 UNIVERSITY		640,000
REVENUE PROJECTION		
LIFE TIME PACKAGE		KSH. 8,515,000 {P.A}
ONE EVENT PACKAGE		KSH. 177,395,000{P.A}
YEARLY AVG TURNOVER		KSH. 92,955,000{P.A}

Competitors

- There are few competitor APPS in the market
- Independent Electoral and Boundaries Commission

Competitive Analysis

- Online voting offers advantages over manual paper ballots and electronic voting machines, including accessibility and security.
- I keep Clients Data safe

Traction & RoadMap

- Development, testing, and implementation timeline with milestones for scalability and expansion.

Partnerships

- Existing partnerships with governments and technology providers enhance our platform's capabilities and reach.

Funding

- **Seeking investment to accelerate development and scale our online voting solution.**
- **Seeking ksh. 3,000,000 payable in 24 months with interest of 8.9% p.a**

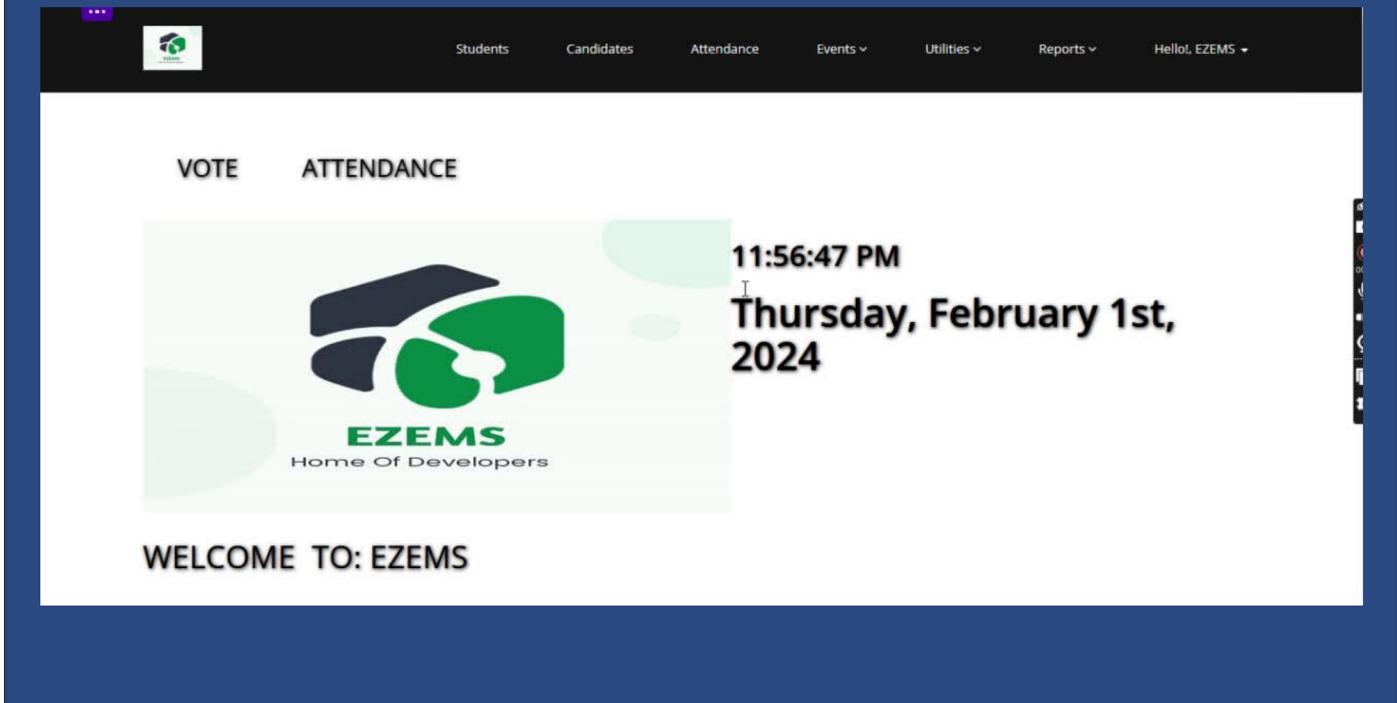

Conclusion

- Online voting is the future of democracy, revolutionizing the way people participate in elections.
- The online voting system can store data safely and reliably
- By using this electoral system, the voting process will be much faster and safer
- Voting process and the calculation of the numbers of votes will be faster because the voting process is done in real-time

Our Ask

1. after the presentation i would like to call any audience who will be interested to join as partner or to fund my project
2. And ready any of my audience to offer me job to sell my software to his company or institution

Demo

A screenshot of the EZEMS website interface. At the top, there is a dark blue header bar with the word "Demo" in large white letters. Below the header is a navigation bar with links: "Students", "Candidates", "Attendance", "Events", "Utilities", "Reports", and "Hello, EZEMS". On the left side of the main content area, there are two buttons: "VOTE" and "ATTENDANCE". In the center, there is a logo for "EZEMS Home Of Developers" featuring a stylized green and blue leaf-like graphic. To the right of the logo, the current time and date are displayed: "11:56:47 PM" and "Thursday, February 1st, 2024". At the bottom left of the main content area, the text "WELCOME TO: EZEMS" is visible.
